**INSTALLATION / PLASTIC LAMINATE**

1. **INSPECTION**
   - Check components for any visible damage or defects. Ensure all parts are present and match the project specifications.

2. **LAYOUT**
   - Note: FLOOR MUST BE CONCRETE

3. **WALL BRACKETS AND FLOOR BRACKETS**
   - Place wall brackets in the desired location and fasten securely.
   - Place floor brackets at the desired height and fasten securely.

4. **POSITION PANEL**
   - Place panel in the desired location and fasten securely.

5. **PLASTER AND FINISH**
   - Apply plaster to the desired area and finish according to specifications.

6. **INSTALL PLASTERS**
   - Install plasters in the desired location and finish according to specifications.

7. **SECURING PLASTERS TO PANELS**
   - Secure plasters to panels in the desired location and finish according to specifications.

8. **DOOR ASSEMBLY AND HANGING**
   - Install door assembly in the desired location and hang according to specifications.

9. **SLIDE LATCH ASSEMBLY**
   - Install slide latch in the desired location and finish according to specifications.

10. **MISCELLANEOUS HARDWARE**
    - Install miscellaneous hardware in the desired location and finish according to specifications.

**NOTE:** FLOOR MUST BE CONCRETE

**WARNING**
- Under no circumstances should these components be subjected to:
  - Abrasive powders or pads
  - Water closet cleaners
  - Ceramic tile cleaners
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes

**CAUTION**
- High humidity areas may cause premature damage.
- Keep these components away from direct sunlight and high temperatures.
- Avoid contact with water and cleaning agents.
- Use only recommended cleaning agents.
- Keep this product away from children.
- Do not use abrasive materials.
- Do not use this product in areas with extreme temperatures.
- Do not use this product in areas with high humidity.
- Do not use this product in areas with direct sunlight.
- Do not use this product in areas with high temperatures.
- Do not use this product in areas with extreme temperatures.

**AS OLD PRODUCTS**
- These products are no longer available.
- Do not use these products in new installations.
- Do not purchase these products for new installations.
- Do not use these products in existing installations.
- Do not purchase these products for existing installations.

**INSTALLATION / PLASTIC LAMINATE**

11. **MISCELLANEOUS HARDWARE**
    - Install miscellaneous hardware in the desired location and finish according to specifications.

12. **CARE AND MAINTENANCE OF TOILET PARTITIONS**
    - Keep toilet partitions clean and free of damage.
    - Avoid contact with water and cleaning agents.
    - Use only recommended cleaning agents.
    - Keep this product away from children.
    - Do not use abrasive materials.
    - Do not use this product in areas with extreme temperatures.
    - Do not use this product in areas with high humidity.
    - Do not use this product in areas with direct sunlight.
    - Do not use this product in areas with high temperatures.
    - Do not use this product in areas with extreme temperatures.

13. **INSTALLATION PLASTERS SHOES**
    - Install plasters shoes in the desired location and finish according to specifications.

**WARNING**
- Under no circumstances should these components be subjected to:
  - Abrasive powders or pads
  - Water closet cleaners
  - Ceramic tile cleaners
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes
  - Solutions containing acids or enzymes

**CAUTION**
- High humidity areas may cause premature damage.
- Keep these components away from direct sunlight and high temperatures.
- Avoid contact with water and cleaning agents.
- Use only recommended cleaning agents.
- Keep this product away from children.
- Do not use abrasive materials.
- Do not use this product in areas with extreme temperatures.
- Do not use this product in areas with high humidity.
- Do not use this product in areas with direct sunlight.
- Do not use this product in areas with high temperatures.
- Do not use this product in areas with extreme temperatures.
b. Before proceeding, confirm that the backing of walls and ceiling is adequate to support secure mounting of the toilet compartment units.

---

**WARNING**

Under no circumstances should these components be subjected to:  * Acids or alkalies * Solutions containing more than 1% by volume of ammonia

**Notes**

- Solutions containing more than 1% by volume of ammonia
- Solutions containing acids or bases
- Solutions containing solvents

---

**CEILING HUNG**

1. INSTALLATION / PLASTIC LAMINATE

2. FLOOR MOUNTED

3. WALL BRACKETS AND PLASTIC LAMINATE INSTALLATION / PLASTIC LAMINATE

- Review the layout drawings and specifications before proceeding.
- All screws should be inserted into an appropriate size for the bracket.
- The screws should be inserted as specified.
- Mark brackets and using centering templates.
