CARE & MAINTENANCE - Plastic Laminate

Plastic Laminate [Print this Page](#)

To provide Plastic Laminate toilet partitions with the proper care and maintenance, the following instructions must be followed:

All four surfaces should be cleaned with a mild liquid soap only. The finish should then be wiped and dried. In areas containing showers, either self-contained or tiled-in units, the partitions in these rooms must receive ventilation from the outside so that excess humidity can escape.

Under no circumstance should the following agents be used:

- Abrasive powders or scouring pads
- Water closet cleaners
- Ceramic tile cleaners
- Solutions containing more than 1% by volume of ammonia
- Solutions containing acids or lye
- Solutions containing enzymes

If the above instructions are adhered to, our product shall provide years of dependable service. **Accurate Partitions Corp.** shall not accept responsibility for product failure if the above instructions are not followed.
