

Re: Buy America Compliance

To Whom It May Concern,

Accurate Partitions Corp has been manufacturing toilet partitions since 1957 and is well qualified to supply the partitions for any project in any venue. We certify that all of our partitions are manufactured in the United States thereby qualifying them under the Buy America Act and in compliance with 49 U.S.C. 5323(J) part 661-BUY AMERICA REQUIREMENTS. The only variance that we claim would be for some of the hardware items. These are not able to be sourced domestically and would be cost prohibitive if they were.

We trust that this information is helpful.

Sincerely,

John Stewack
